## **Environmental Policy**

At Fenham Farm we are committed to working in a sustainable way.  
Our commitment is to:

- Comply with the requirements of environmental legislation and codes of practice
- Continuously seek to improve our environmental and social performance
- Reduce pollution and waste
- Reduce our consumption of energy and water
- Raise awareness of, and encourage participation, in sustainable business practices
- Expect similar commitments and standards from our suppliers and contractors
- Assist our guests to use our services and facilities in an environmentally sensitive way
- Be involved in creative ways with the local community
- Minimise our risks associated with social and environmental issues
- Work within our membership of the Green Tourism Business Scheme to monitor, improve and sustain our commitment to these issues.

Please help us to meet these commitments in any way you can by being a greener visitor.
