## **Responsible Visitor Charter**

Be a responsible visitor - some things you can do to help save the planet

- Conserve energy –if your room gets too warm please turn the heating thermostat down rather than opening the window.
- If you're going out, please turn off all the lights. When you are in for the night please switch off the external light outside your door.
- Be water wise – Turn off the tap when brushing your teeth and follow the towel policy notice in the shower room.
- Give the car a rest – take a walk. There are some maps in the room folder outlining some short walks around the farm.
- Respect Nature- help us to look after the landscape by not littering, guarding against fire and using footpaths and cycle-ways responsibly. Follow the Countryside Code.
- Reduce, Reuse, Recycle. Please use the green bag for recyclable materials. There is a list in the folder of materials Northumberland County Council accept in the blue bins.
- Shop local. We are fortunate to have some fantastic producers of food, drink and arts and crafts in our region. There is information about some of them in the room folder and the dining room.
- Support Green Tourism Businesses. There are hundreds of businesses trying to reduce their environmental impact through the Green Tourism Business Scheme.
